To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with James Scott Elmer on 04/27/2007.

- In claim 1, line 3, delete the phrase "or an active fragment thereof".

Allowable Subject Matter

3. Claims 1,4-6 and 23-25 are allowed.

4. The following is an examiner's statement of reasons for allowance:

In the parent application, Serial No. 09/966,893, product claims directed toward a pharmaceutical composition comprising a protein useful for treating a lysosomal storage disorder other than Fabry disease that is selectively imported into macrophages when administered to a subject and a pharmaceutically acceptable carrier, wherein said protein is produced in an insect cell culture, were allowed in view of the decision on appeal by the Board of Patent Appeals and Interferences dated 09/28/2006 where the rejections of record had been reversed.

The claims of the instant application encompass a method of treating a subject suffering from a lysosomal storage disorder other than Fabry Disease caused by a deficiency of a specific protein comprising administering a therapeutically effective amount of the allowed product of Serial No. 09/966,893. The prior art neither teaches nor suggests the claimed method in which production of the deficient protein in insect cells results in a protein having mannose residues that can be recognized by mannose receptors on macrophages.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
